MILES BACK TO THE BUSH Festival

Operated by

WELCOME

We would like to welcome and thank you for being here in Miles to share this year's festival, which has been sewn together with laughter, sweat and a good dash of stress.

Our festival aims to be a celebration of living in the bush and it is with great joy that we are able to deliver this unique bush experience to our community and visitors.

This committee has volunteered countless hours behind the scenes. Many more amazing volunteers have stepped up to coordinate events or simply give a hand.

We are all driven by a shared love of Miles and we hope the people and natural beauty of this part of Australia captures your heart a little too before you leave.

Have a memorable festival!

ABOUT THE BUSH FESTIVAL

Our festival is all about celebrating and sharing what our community loves about living in the bush. Coinciding with the anniversary of the Miles Historical Village Museum adds a special layer of vintage style and activities to the celebrations.

The festival's history of names reveals the very things that makes the area special. Its roots stem back to the 1950's with the Miles Wildflower Festival. The event progressed to become The Beef Bells and Bottle Tree Festival and since 2018 the name Back to the Bush Festival was adopted, coinciding with an up-scaled program with great success.

TRADITIONAL OWNERS

Back to the Bush Festival acknowledges the Barunggam people as Traditional Owners of Country and recognise their continuing connection to land, waters, culture and community. We pay our respects to Elders past, present and future.

See a striking array of grevilleas, hakeas, wattles, bush peas plus much more.

Pick up a self-guided Wildflowers Tour brochure at the Miles Visitor Information Centre and drive yourself (unsealed roads suited to high-clearance vehicles) or join one of our Wildflower Bus Tours with a Boobook Tours' Botanist who will help spot the rare and threatened species like the Gurulmundi Heath-myrtle and plants such as tiny ground orchids that you might otherwise miss.
